### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 7/18/2001.
- 2a) ☐ This action is **FINAL**.                      2b) ☐ This action is non-final.

### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters: claim 9 is objected to because of the following informalities:

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o).

Corrections of the following are required:

Regarding to Claim 9, in the beginning part, the mistyped term of subject matter “feedback network” has not been taught by the applicant as described in the specification wherein the specification only discloses the term of subject matter “feeder network” (See specification, page 2, line 8).

Also regarding to Claim 9, in the last part, the claimed subject matter “receiving the transmission packets by the communication terminals having the associated destination addresses, and then forwarding the transmission packets” has not been exactly taught by the applicant as described in the specification and wherein the specification clearly discloses the subject matter with additional **terminating facilities** (RNT, Fig.1) as the first receiving step before forwarding as

“receiving the transmission packets, via the downstream of transmission, by the **terminating facilities associated to the communication terminals** having the associated destination addresses, and then forwarding the transmission packets to the **communication terminals**” (See specification, page 7, lines 16-21).

Art Unit: 2663

2. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

3. Claims 9-16 are allowed.

***Examiner's Statement of Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

The prior art along or in combination fails to teach or make obvious the limitations for a method for transmitting packet-oriented information between a central facility and communication terminals via a feeder network, at least one radio link including transmission channels implemented in accordance with a TDMA access method being arranged in a communication terminal area in the feeder network that specifically comprises:

“permanently allocating, in a downstream direction of transmission, at least some of the transmission channels to all communication terminals”,

“inserting the packet-oriented information to be transmitted for the respective communication terminals into transmission packets using a packet-oriented transmission protocol”, and

Art Unit: 2663

"inserting a respective destination address into the transmission packets for the respective communication terminals" as recited in the independent claims 9.

*Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Chang whose telephone number is (571) 272-3129. The examiner can normally be reached on Monday - Friday from 8 AM to 5 PM.
